Fire danger today is **MODERATE**. Some occasional strong wind gusts have been recorded at the RAWs this afternoon which will increase fire danger to high where winds are stronger. Greening is progressing in variable stages across the state. Where live fuels are mixing with dead fuels, fire danger is moderated. Open burning is allowed where fuel and wind conditions are favorable.

Tomorrow, the weather conditions will be similar to today with **MODERATE to HIGH** fire danger. Where winds are stronger, fire danger will be higher especially in northeastern Vermont where greening is progressing more slowly.

[Six Minutes for Safety: An interagency safety initiative that address high-risk situations that historically get firefighters in trouble.](#)

Report Submitted by: Tess Greaves, VT Dept. of Forests, Parks & Recreation
